

# OF THE ORCHARD

## Stage Plot

IEM Rack

Stage R

Stage L

Inputs

**Notes:** The IEM rack contains a 16 channel copper split. Mics should get plugged into the IEM rack first. Then the secondary outputs from the split snake inside rack can get plugged into the stage box leading to FOH. The split snake has a 15ft length. Location of the rack does not need to be according to this diagram. Whatever works best for the venue is good for us.

1	Kick	5	OH_Hat	9	Guitar Stage C	13	
2	Snare	6	OH_Ride	10	Vox Stage R	14	
3	Tom 1	7	Bass (DI)	11	Vox Stage C	15	
4	Tom 2	8	Guitar Stage R	12	Vox Stage L	16
